

# KosherKeepers® organizing your kosher kitchen

KosherKeepers® Food Storage Containers are available in a variety of sizes, printed in red, blue and green with corresponding colored lids for easy kosher classification – meat, dairy and pareve. The containers provide an easy, inexpensive method for storing kosher food in a systematic organized fashion without the need for labeling.

KosherKeepers should be presented as a housewares product, as opposed to a commodity food service disposable. They are available as single containers, or in retail packs in 8 oz, 16 oz, 32 oz and our new 64 oz. They are packed in a master carton and ready to be placed on the store shelves for easy distribution and sale. A free-standing pre-packed retail display including all sizes and categories is also available for placement directly on the retail store floor.
